Merits Of Heating Civic Buildings By Gas, Coal Argued

Committee Lays Over Appeal of District Coal Operators

Respective merits of heating civic buildings by gas or by coal were argued today by members of the civic finance committee Wednesday afternoon, when the committee met to consider the appeal made by district coal operators that coal be substituted for natural gas in the heating of the city's buildings. This matter was tabled until review of reports from heads of the departments affected by the proposed change in fuel. Also, the North-western Utilities Limited and the coal operators will submit written arguments.

PRICES LOWER

In speaking to the proposal that coal be used instead of gas in the city's buildings, Mr. Starkey pointed out that gas had been used by the city for the past five years. In 1927, when coal was used, the average cost per ton had been \$12.00. Price of this fuel had dropped considerably since then, and the coal could be supplied with coal even cheaper than the cost of \$2.25 per ton on special contracts for the supply of fuel to relief camps. Mr. Starkey pointed out that the fact that relief coal was delivered in bulk, and that it was delivered directly to the city, was a great saving.

REDUCED CONSIDERABLY

Quoting figures, he stated that in 1923 the cost of coal to the Edmonton Public School board for fuel supplied to schools totaled \$80,000 for the present year due to decreased coal rates and yet there were more school buildings being heated in 1932.

SAVED BY USING GAS

If the total amount of gas used by the city during 1931—\$41,211.10 cubic feet—was converted into coal tonnage it would have meant a total consumption of coal of 4,622 tons, said Mr. Garrett. At a rate of \$2.25 per ton, the city would have had to pay \$10,399.50 for the coal, and the gas bill for the same period had totaled \$12,106.87, and figuring along with the city and the gas saved approximately \$2,000 by the use of gas. One ton of coal was

NO USE BEING REAL HOARDER

Financiers have been preaching to us about the sin of hoarding and telling us that if we want to end the depression we must get the money out of the hoards and put it into circulation again. The money out of the safety deposit box and put it into circulation again. The money out of the safety deposit box and put it into circulation again.

Even a woman who is hoarding money is the hoarding of money and she is a hoarder of money. She is a hoarder of money and she is a hoarder of money. She is a hoarder of money and she is a hoarder of money. She is a hoarder of money and she is a hoarder of money.

In fact, in the past hoarding was explained as a virtue. There was even a proverb that if I save a thing seven years you would find a use for it. Which, of course, was the reason why men, for in the majority of cases most things have rusted or rotted in seven years. Besides nobody ever goes back and reads old magazines or wears old shoes or finds a place where an old book or flower tin in an attic, and every woman knows from experience that a dress made over is an extravagance that only the rich can afford.

Planning Makes The Christmas Dinner Simple

Work for Christmas Day Can be Reduced to Minimum

By MRS. MARY

A study of week-end customs and menus suggests a great variety of meats in perfect keeping for the Christmas feast. Roast beef, baked ham, crown roast of pork, game and fowl of any sort, may be chosen for the most course. Duck has been the traditional Christmas bird for centuries, but goose or chicken can be quite as festive. Many housewives plan their Christmas dinner in regard to the preceding Thanksgiving feast and the following New Year's feasts. For Thanksgiving, goose for Christmas, chicken or roast pig for New Year's.

Christmas breakfast is an important meal in houses where there are children. Breakfast in this time until eight o'clock means a fairly hearty meal, but it should be simple and light. Eggs, bacon, toast, and fruit are the staples. Eggs, bacon, toast, and fruit are the staples. Eggs, bacon, toast, and fruit are the staples. Eggs, bacon, toast, and fruit are the staples.

All the foods that can be prepared in advance should be prepared in advance. On Christmas day it can be returned to its normal condition. The pudding sauce can be made in part the day before and then reheated. The pudding sauce can be made in part the day before and then reheated. The pudding sauce can be made in part the day before and then reheated.

When I had surveyed the room I turned to my friend and said, "I think this is the worst Christmas dinner I have ever seen. I am not one of the women who pile up all of this food. I am not one of the women who pile up all of this food. I am not one of the women who pile up all of this food. I am not one of the women who pile up all of this food."

Falling Hair After Nickname Dear Miss Leeds—Have just recovered from a serious attack of hair loss. I am well on the way to recovery, but my hair is falling out quite badly. Will you kindly suggest a good home treatment? I cannot afford to pay for special treatments at this time.

JUST A WORKING GIRL Answer—After any severe illness where a feverish condition is the predominant feature the hair is usually falling out quite badly. As you regain your normal health and vitality your hair will also improve. In the meantime, everything to build up your general health. Use the warm-oil treatment before the shampoo. Rub well and apply a good scalp tonic such as the following: One drachm of castor-oil, one drachm of sweet almond oil, one drachm of rose water, one drachm of lemon juice, one drachm of bergamot, one ounce of drops of bergamot, one ounce of drops of bergamot.

Answer—The ideal weight for a woman of your age and height is between 135 and 145 pounds. You are a few pounds overweight. You should try to keep your weight as normal as possible at your age.

Normal School Students Form Alliance Branch By HANNAH MILNER Mrs. John W. Barrett of the Alberta Teachers' Alliance has been elected president of the Edmonton Normal School students' alliance. The alliance was formed on Tuesday afternoon, Mr. R. W. Healey acted as chairman and in a few well-chosen words introduced the speaker, Mr. Barrett, in his introductory remarks pointed out that Mr. Healey was one of the best teachers in the alliance since its foundation. Comparing teaching to other professions he said that there is more in a profession than just belonging to a form of Trade Union. The Teachers' Alliance of Alberta has a membership of 1,000 members. It is not only the strongest organization of its kind in Canada, but in the North American continent, as well. It has an executive which acts as the mouthpiece for all the teachers of the province. The Teachers' Alliance is a very important organization which helps the organization as a whole and stands behind each individual teacher. He cited examples of this. Question—I'm giving a Christmas dinner to some one of my new "in-law" friends have been invited, and I'm a little nervous about it as I expect they will be critical. I do my own cooking, but have engaged a maid for the occasion to wait at table and wash dishes after dinner. In my dining service, but have none of my own. I have some cups—wedding gifts. Would it be all right to serve soup in these cups? (It is beautiful, anyway.) Is it correct to bring them from the cups without using a spoon? How are olive oil cups?

Answer—I expedite matters to serve the turkey or the turkey and vegetables on heated plates. This is known as platter service. When vegetables are offered to dilute the meat presents the dish at the left side of the diner. Because of their heat-retaining value bouillabaisse are more generally used than soup plates nowadays. The soup is taken with a spoon for the first few sips, then the cup is taken by the handle.

Mildred "Babe" Didrikson Forsakes Amateur Status

BEAUMONT, Texas, Dec. 22.—Mildred "Babe" Didrikson has turned pro.

This 19-year-old Texas girl, universally regarded by sports followers as one of the world's greatest all-around feminine athletes, announced last night she had forsaken the amateur status which the U. S. Amateur Athletic Union already had taken from her for alleged commercialism.

This slender, firm muscled girl who seemingly does everything athletic with ease, said she had accepted a firm proposition, would do sports writing, and was considering other offers.

Prairie Wide Plans for 1929, 1930 Farmers' Debt Adjustments Offered

Oil Concern Gives Details To Assist Cause Of Agrics

All Interest Charges Cancelled From Time Incurred Until Oct. 1, 33

RUSSIA STATE FARMER PLANS FALLING DOWN

Deliveries of Grain Are Far Short of Collections Assessed

MOSCOW, Dec. 22.—The State Farms, to which the Soviet government looks not only to furnish approximately one-seventh of its grain resources but also to set an example for collective and individual peasants, were pictured as having fallen down badly in their deliveries of grain to the State.

Acknowledging that this branch of agriculture had raised only 77.8 per cent of the collections assessed against it and supposed to be completed Dec. 15, the newly-created commissariat for grain and cattle-breeding State Farms issued stringent orders for immediate improvement in the situation which it described as "shameful."

Although 62 scattered state farms were credited with completing their collections, the commissariat pointed out that not a single grain elevator of which comprises a group of state farms had met its obligations to the government thus far.

It condemned those farms in Siberia, eastern Siberia, western Siberia and the Urals as most backward directing attention to the fact that the East Siberian Trust had the worst showing with only 56 per cent of the collections completed.

Placing responsibility directly on the shoulders of the individual directors of the state farms, the order threatened them with arrest and trial unless effective measures were taken to complete collections forthwith.

IMPROVEMENT OF \$1,000,000

While the company makes no announcement of the aggregate par value of debts involved, it is understood that it is upwards of \$1,000,000, and the amount by which the total capital debt will be scaled down depends upon the value of wheat during the five years following October 1 next. Interest charges accumulating from that date will also be scaled down, should wheat prices remain at depressed levels.

Apart, therefore, from the material reduction in interest charges, Imperial Oil's Christmas present to the beleaguered wheat is a plan whereby farmers may repay old debts upon a basis of current earning capacity, rather than upon exercising capacities as at the time of contracting the debts.

NO TOWN OF FLESH

The principle of ability to pay thus replaces the "pound of flesh" theory in fixing the actual value of debts owed the company. In signing its liberal policy, the company estimates that the outstanding debts included in the plan were incurred when wheat was at an average value of 70 cents per bushel. Thus, 100 bushels of wheat was equivalent to a \$70 liability incurred through the purchase from Imperial Oil of gasoline and oil to operate farm machinery in 1929 and 1930.

WHEAT 70 CENTS

In repaying the debt on the annual due dates beginning October 1, 1933, 100 bushels of wheat, according to the plan offered, will still repay \$70 worth of the individual farmer's debt. Thus, if No. 1 Northern wheat on any due date closes at 70 cents, the farmer will pay full the value of the debt. If, however, the closing price is 80 cents, the proceeds from the sale of 100 bushels of wheat would still discharge \$70 worth of the original debt.

MAYOR BROWN GOES ON TRIAL

LETHBRIDGE, Dec. 22.—Waiving preliminary hearing, Frederick W. Brown, mayor of Bow Island, Alta., was today committed for trial on charges of failing to pay to the Alberta provincial secretary monies collected from motor drivers' and chauffeurs' licenses here. Brown, arrested in Winnipeg by Royal Canadian Mounted Police, may be released if \$10,000 bail is provided. Trial will take place in March.

For hours and hours the Times stood and did the very best they could to help kind Santa to sort his mail and make a list of things. "It's a lot of work, boys," Santa said, "but soon you all can go to bed and dream of all the happiness that serving youngsters brings. "I do not want to miss one lot. That's why I've made up such a lot of lovely toys to take along when I start on my trip."

"(READ THE STORY, THEN COLOR THE PICTURE.)"

"The well that I speed through the air and manage to reach everywhere. Why, I can carry enough toys to last a great big ship."

"And, that reminds me. One more thing, is going to little old Mrs. Brown as you see here. 'Night now you'd better go to bed and rest. Each little sleepy head we'll do the task I speak of when you wake, tomorrow morn.'"

"They must be brushed. That's what we'll do today."

"Of course they're very seldom seen, but even so, I want them clean. Some curlyheads are on the night."

"The reindeer all stood very still and let the Times work until old Santa said, 'That's wonderful. Each reindeer's nose looks bright.'"

"The Times help Santa lead his sleigh in the next story."

B. C. TAX PLAN FAR INADEQUATE

VICTORIA, Dec. 20.—The Jones law per cent tax on income, which is expected to bring between \$2,750,000 and \$3,000,000 into the British Columbia treasury, yearly, may have to be doubled or trebled, it is said in some quarters at the parliament buildings.

With revenues falling and unemployment costs mounting a tax on income and wages earmarked for unemployment relief may be necessary, it is said in some circles. This tax may be one or two per cent in addition to the one per cent tax now being collected by employers.

Prince Mike Kicks His Nose Off His Bust

NEW YORK, Dec. 22.—The New York Herald Tribune today publishes the following special despatch from Bucharest, Rumania:

"A story has leaked out of the royal palace of how a Rumanian scoundrel, who is making a bust of eleven-year-old crown prince Michael, had found his work without a nose when he arrived to secure his modeling."

"Consternation prevailed. Court officials began a rigorous investigation, fearing that the vandalism was part of a political plot aimed at the rule of King Carol II. There was a good deal of trepidation about telling the heir to the throne."

"But Michael heard the news with a smile. I didn't like that nose, so I kicked it off," he explained.

"Whether anything was done about the matter after that could not be learned."

Oklahoma Head Proposes Revival Of Whipping Post

OKLAHOMA, Dec. 22.—Revival of the whipping post, both for malicious juvenile offenders and for violators of mining laws, was proposed today by Governor "Alfalfa Bill" Murray.

For juvenile offenders, Murray recommended the whipping post for first infractions and confinement in stocks for second offenses.

Instead of jail terms, persons convicted of chicken stealing, drunken driving, wife beating and the like, which Murray called "high misdemeanors," would receive 39 lashes with a cat of nine tails.

A certain tribe of Southern Indians, the Todas, regard their purveyors of milk as "high men."

The opinion is an unusual whipping agent for times.

Dog Makes 3 Attempts To Kill Self

BUDAPEST, Dec. 22.—Three attempts at suicide have been made by Pal, a German setter, as a result of being separated from his master, owner of a restaurant in Budapest.

So his master explained when Pal jumped off a bridge over the Danube, only to be pulled out by a rescue crew.

The first time the dog thought himself deserted he jumped over the edge of a cliff. Again, his master said, the dog was found hanging with a spike of an iron fence through his collar.

Debt Adjustment AND Interest Reduction

by IMPERIAL OIL LIMITED on accounts owing by Prairie farmers for products bought in 1929 and 1930

TODAY burdens of debt are disturbing nations and individuals and causing fear to weigh heavily upon all people. Until fear is overcome and employment increased, thereby strengthening prices, difficulties will continue to prevail.

Because of this situation the Company has by the means at its disposal provided labour and earnings for a larger number of people with the twofold object of reducing unemployment and strengthening the market for agricultural commodities. As a further contribution to the improvement of conditions, the Company will apply the following plan with regard to the individual debts which are owing to it by farmers in the Prairie Provinces for products supplied in 1929 and 1930:

DEFER PAYMENT AND CANCEL INTEREST

- (1) Payment of these debts will be extended over a period of five years beginning October 1, 1933, with equal annual installments due each October 1.
- (2) The Company hereby undertakes to cancel entirely all interest charges on these farm debts from the time the goods were purchased until October 1, 1933, thus very materially reducing each farmer's liability to the Company and relieving him in present difficult times from further accumulation of debt.

LOW CARRYING CHARGE

- (3) The Company will carry these accounts on its books after October 1, 1933, at a rate of four per cent interest.
- (4) The Company will adjust principal and interest payments in direct ratio to the price of wheat prevailing on October 1 of each of the five years when installments will be due.

- (5) In 1929 and 1930 a large volume of petroleum products was supplied on credit because many farmers were then unable to pay cash for the fuels and oils needed to seed and harvest their crops. In this extremity the Company departed from its established policy of selling for cash. Otherwise thousands of farmers would have been unable to work their land and the Company hoped that satisfactory crops and prices would restore prosperity to the entire western agricultural community. The wheat produced with these products was marketed at an approximate average price of 70 cents per bushel.

WHEAT PRICES REGULATE PAYMENT

Taking this price as a basis the Company is prepared to extend an adjustment of principal and interest whereby the farmers' annual payments will be in the same ratio to the amount due as is the price of wheat, at the time payment is due, to the price of 70 cents. The price upon which adjustment will be made will be the price of No. 1 Northern Wheat at Fort William at the close of the Winnipeg Grain Exchange on October 1 of the year in which payment is due. If the price should be below 70 cents, the installment due from the farmer will be reduced proportionately. On the other hand, should the price be in excess of 70 cents the installment due will not be thereby increased and the farmer will enjoy entirely the added benefit of a higher price.

APPLIES FOR FIVE YEARS

(6) The same method will apply during the five years over which payments are being extended. For example: if wheat is 70 cents a bushel or more on October 1, 1933, a farmer owing an installment of \$63 would pay his installment in full. If, however, wheat is 60 cents a bushel on that date his installment would be \$54, a saving of \$9. If wheat is 50 cents a bushel on that date his installment would be \$45, a saving of \$18. Should the price of wheat be below 50 cents a bushel a reduction in the same ratio will be made. This plan includes an arrangement to continue the business relationship between this Company and its Western farmer customers. A farmer may at any time after October 1 next pay his account in part or in full and the amount payable will be adjusted on the basis of the price of wheat on October 1 preceding date of payment.

INDIVIDUAL OBLIGATIONS SMALL

While many thousands of farmers in the west are in debt to the Company, the individual obligation is not large. The Company has served Western farmers from the pioneer days and is proud that since petroleum products were first required on the Prairie farms it has maintained a continuity of supply at all points. In its long dealings with the farmers its experience has been that they meet their obligations as quickly as their circumstances permit. In view of conditions, when through no fault of their own their incomes have been greatly reduced, the Company believes that they should be given all possible assistance by deferred payment, by low interest charges and by prorating their obligations to their earning ability.

demanded from office by the premier of New South Wales, James McGowen. His United Australia Party government was ousted last week.

McGowen, in the wake of his taking office as Premier declared Wednesday that 60,000 factory employees had been dismissed from their jobs during the period had been three months.

"There is a new spirit" of good-will among the workers, McGowen said. "The Government of New South Wales is hoped the emergency orders now in effect to maintain law and order will be dropped."

McGowen said he would ask Sir Samuel, The Indian legislator, to visit Australia to advise the government of India the necessary powers to deal with the situation.

The newspaper credits its information to a "certain consulate in Japan." This is probably meaning the Japanese.

McGowen said he would after murdering the Soviet instructors, the insurgents could expect Unga. Being a government official, McGowen said there to flee.
